

## DATES TO REMEMBER

- Whānau Hui Thursday 29 November 4.00pm
- Board of Trustees Meeting Thursday 29 November 5.30pm
- Cultural Festival - Henderson Int Friday 30 November
- Celebration Evening - Tuesday 4 December Evening
- Reports sent home 7 December
- Tuesday 11 December Final Assembly 1.30pm
- Last day of 2018 Friday 14 December 1.00pm

**Thank you so much to the Henderson Rotary  
for supporting us every year with Dictionaries**

Dear Rotary Club

Thank you for giving us our very own dictionary. It will be very helpful when I am learning to spell new words and find the meaning of words. I like the dictionary because its easy to find the word. I also like the pictures too. Room 7

**Iceblocks for sale  
Wednesday and Thursday  
at lunchtime for a \$1**

## HENDERSON NORTH SCHOOL NEWSLETTER

Dear Whānau

26 November 2018

### *Be Responsible*

*Each week we write this newsletter in the hope that it gets home to each family.*

*We include information about what is coming up and ways for you to help your child and examples of learning.*

*However you do need to make sure your child is responsible in bringing it home to you.*

*You may also read it online or have it emailed to you.*

Last week was a quiet week as Year 5 & 6 classes were on camp at 'Lakes Ranch' in Rotorua. It was a very exciting week with a visit to 'Hells Gate', horse riding, kayaking, bush walking, abseiling, archery and many many more fun activities. Of course this couldn't happen without willing staff and parents. We know the children enjoyed it and we hope the helpers did too.

### HATS

Hats must be worn at morning tea and lunchtime.

Please make sure your children have a hat.

*Irene Ogden - Principal*

## Stories from Room 9 about 'Bee's'

Bees start of like a egg then they turn into a larva and they turn into a wiggly pupa. Then finally they turn into a bee. Bees have 5 eyes and girls have stingers and they have 2 pairs of wings. They have 6 legs and a long tongue and they make buzzing sound. The bees sip the nectar with their very long tongue from the flower sip, sip, sip! On their legs are pollen. And the bees best friend is a flower and after that the pollen spreads on the other flowers. Bees are a insect and the boss of the hive is the Queen bee and the queen bee, lays eggs and the honey bees make honeycombs. After that they do the round dance and they do the 8 dance. They have to visit 2 million flowers to make one jar of honey.

Aleyah

Bees start as eggs then they turn into larva which is a worm and then it turns into a pupa and it becomes a bee. And larva eats and eats and eats and they get so fat. Bees have 2 pairs of wings and 3 body parts. They have black and yellow stripes and a long tongue and a hairy face and body. A bee has 2 big eyes and 3 little eyes and they live in a hive. Bees sip the nectar from the flowers then the pollen goes to their legs and makes the nectar thicker. They pass the pollen to another flower and sip the nectar, then they go back to their hive and make honey. Bees are insects and they live in a hive. The boss is the queen, her job is to lay eggs. And the worker bees are the female bees. If you bother or disturb them they will sting you. The bees are good dancers and there are different types of bees.

Kaitlin

Bees start of as eggs then they turn into larva then a pupa then a bee. They have hairy bodies and some of them have hives on trees and some on the ground. They have 3 body parts and 2 antennae, also 2 bigs eyes and 3 little eyes. They sip the nectar when they go to the different flower and pollen spreads on the ground to make more nature. A bee is a insect. The queen bees job is to lay eggs and they make honeycombs. Also they sting you if you bother them.

Arav

Bees start as eggs and then larva and then they turn into a pupa and finally they turn into a bee. They have 2 big eyes and girl bees have stingers. They have 2 pairs of wings and are insects. Bees make food for us. People are scared of bees because they might sting them so they run away. Bees have baskets of pollen and the pollen sticks to their hairy legs and they take it to other flowers. They sip the nectar. They live in a hive. Only the worker bees build the hive and they only sting when you disturb them. The queen bees lay the eggs. She is the biggest in the hive. The bees came out to get the honey. Kea

Bees start as eggs and they turn into larva. The larva must eat and eat. It gets fatter and fatter and then it turns into a pupa, then it turns into a bee. The bees drink the nectar from flowers and when the bee flies to the next flower the pollen falls to the flower. Bees are insects. The queen bee is the boss. Her job is to lay eggs. The honey bees make honeycombs. They do the round dance to call the other bees when there is food. A bee has 5 eyes and 2 pairs of wings. The girl has a stingers. It has 2 antennae and it has 6 hairy legs and black stripes.

Olivia

Bees start their life as eggs then larva and eat and eat and then grow and get fat. Then pupa and finally a bee. Bees are nature. Bees look different they have 5 eyes and stingers. Bees have 6 legs and stripes. And a big tongue and 4 wings and 3 body parts. They live in a hive. Bees help flowers to grow. The bees are a flowers best friend. Bees drink the nectar from a flower and they help make seeds and plants that we need. Bees are the best! If we didn't have bees we wouldn't have flowers. When bees go to a flower, pollen sticks to their hairy legs and the queen bee helps to make honey. The bees dance tells the other bees that there is nectar nearby. That is why we need bees. The queen bee is the big bee and her job is to lay eggs.

Aesha

## GIANT BUBBLE

Today Mr B and room 6 students taught us how to make our own bubble wand, so we could make giant bubbles. We used 4 coloured straws and some string. The String was about 80 cm long. We put the sting through 2 of the straws and we tied a knot in it next we folded the other straws and put home inside of the straws with the string. This made the handles of our want. Then we went outside and tried to make big bubbles. It was incredible. It was a lot of fun but it was hard to make bubbles.
