

RESEARCH

Create a poster or a google slide or google doc to display your work.

Choose a wild animal or sea creature and research it. Choose your favourite!

Find out

- Its size and physical characteristics
- Habitat (where it lives)
- What it eats
- Hunting ability
- Speed it can run /swim
- Camouflage features
- Is it endangered
- How many young does it have - what is the gestation period
- Fun facts

This project is for the week so read different articles and take notes before writing. It may take 2 or 3 days of reading and note taking.

Make sure websites agree, not all websites are correct.
